

Street Cat Rescue's Trapper Buddy Program

Street Cat Rescue is in great need for more Trappers for our Trap/Neuter Return (TNR) Program! We will pair you up with an experienced trapper, who will teach you how to humanely trap the many feral/stray cats in our community who need to be TNR'd. We get numerous requests for helping in the community.

This is a wonderful experience to be able have a hands on approach to reducing the cat overpopulation problem! Ask for more Details!
